STAT

Arrangements have been made for the chemical training in your facility on the 15, 16, & 17th of April. [redacted] and I will be there Tuesday, the 15th at 8:30. Russ and I will only be there one day and would like to spend some time on Sensitometers, Calibrations & Standards, Resolution Targets & Friskets, and associate T&E subjects. Harry's training outline is as follows:

STAT

15th Lecture - Developer Composition
Exposure & Processing Effects

Lab - Developer Preparation of Various Composition and the Associated Sensitometry

16th Lecture - Agent Classifications

Kinetics of development

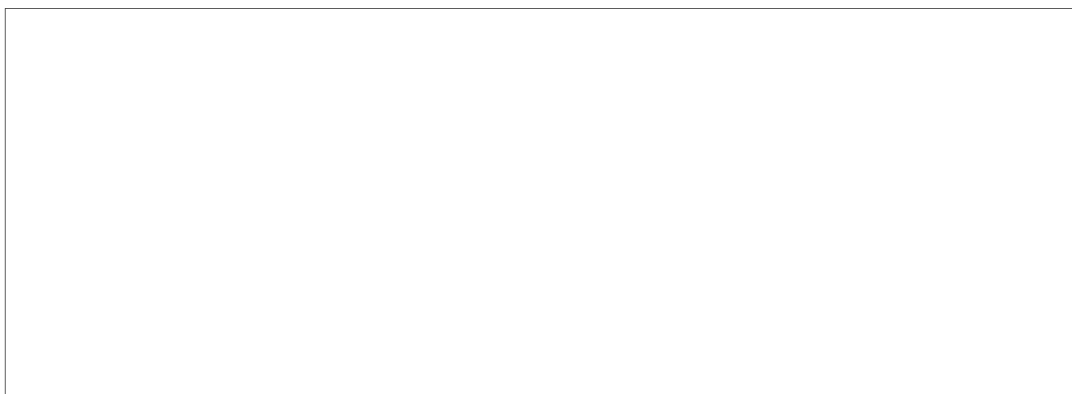

Lab - Kinetics Study Experiment

17th Laboratory Solution of a Typical Operational Problem

Exposed wedges and resolution target overlays will be furnished.
Chemical not in your inventory will be furnished.

STAT

The current financial status is:

STAT

*This is approximate since exact billing has not been figured.

With going for Marshall's work, a balance of is left for your work. The revised estimate for the training is approximately leaving an uncommitted balance of This may well cover the cost of the continuation of work on effective exposure. We will discuss this when we come next week.
